NILES CHAMBER SEEKS ACTION ON FLOOD PROJECT

The Niles Chamber of Commerce resumed its fall meetings Monday noon at the City of Florence Restaurant with President T. C. Wilson in the chair. Seven members and a guest were present.

Discussion was had on the state highway department's delay in okaying the county surveyor's plan for the flood drainage project here, and E. G. Glassbrook was asked to consult with Colonel Skaggs of the state highway department the next time he goes to San Francisco, which he consented to do.

E. A. Ellsworth reported that a highway department appraiser came to Niles several weeks ago, made offers for rights-of-way over two pieces of unimproved property and the owners had refused to sell the rights desired for the sum offerred. The highway department will institute condemnation proceedings, according to report.

Vernon Ellsworth was appointed to represent the Chamber on the Niles clearance committee, consisting of one representative from each Niles organization. This committee is being formed at the suggestion of Ed Enos, president of the Junior Chamber to quickly take charge of any matters of civic interest requiring early action.

In the absence of Secretary Petsche, who has been ill at home with the flu for several weeks, no minutes or communications were read.

HUNTERS WARNED OF FIRE DANGER

SAN FRANCISCO — Deer and bird hunters were requested by Forest Service fire control headquarters here today to help maintain the season's exceptional forest fire prevention record.

"So far this year," said Regional Forester S. B. Show, "the national forests of California have had less than two-thirds the number of man-caused fires for the same period last year.

"We may expect slightly below normal fire weather for the opening days of the high-country deer season but that shouldn't lure sportsmen into a false sense of security. Every preacution must be carried out in the use of warming fires, campfires and burning tobacco. The fire prevention cooperation of most hunters has always been outstanding. I hope it continues that way."

Reverend R. C. Day left Niles late Monday and spent the night with his sister in Oakland. Early Tuesday morning he officiated at a funeral.

NATIVE SONS ARE "RUNNERS-UP" IN OAKLAND TOURNEY

CHAMPIONSHIP TEAM HANGS UP ITS SUITS AFTER SUNDAY GAMES

The Native Sons softball team of Washington Township, winners of the championship in 1939 and 1941 won three out of four games in the Native Sons softball tournament recently at the Oakland auditorium softball grounds to earn a "runner - up" trophy. Manager Kenneth Ferry along with his ten regular players and his only pitcher, Leland Telles should be given a lot of credit for their fine playing in this tournament.

The line up at Oakland consisted of Manuel Azevedo, catcher; Leland Telles, pitcher; Edward Lebon, fire base; John Valin, second base; Joe Duarte, short stop; Kenneth Ferry, third base; Ernie Pimentel, left field; Ralph Brown, buck short; Al Silveria, centerfield and Vernon Rose, right field.

Native Sons defeated Berkeley in the first game at 9:15 a. m. by a score of 2 to 0 with Leland Telles pitching a no run no hit game. At noon L. Telles pitched his second shutout game when the local club defeated Sonoma 6 to 0. For the third straight game Native Sons shutout their opponent team by defeating Sacramento 4 to 0 at 2:45 p. m. The final game was the jinx for the local club when two powerful home runs one by Telles and another by Azevedo with no one on the bases didn't give them enough runs to defeat Stockton at the 4 o'clock game who won the State Native Sons Softball tournament for 1941 by a score of 5 to 2. Leland Telles losing pitcher in the final game allowed only four hits holding an impressive pitching record for the day. Both of these teams were awarded their trophies on a recent Monday evening at the Hotel Leamington in Oakland, when the Native Sons convention came to a close with a farewell banquet.

According to Manager Kenneth Ferry, who is at the present time enjoying his ten day vacation fishing and hunting in Modoc, the Native Sons club are hanging up their suits for 1941 with a record of 25 wins and three losses. At the present time they have the honor of showing three trophies to the public, two softball trophies from the Washington Township Softball league in 1939 and 1941 and their latest trophy for having fought hard to enter in the final game.

Township people will have to show considerably more interest if this State Guard company is to be formed here, Waynflete says. Seventy-five men must sign up, 60 of whom have to be in uniform and on the floor at the armory before this company can be mustered in, following which rifles can be applied for and the company can really get in and drill.

BUILDERS OF WASHINGTON TOWNSHIP

The Progress of the world depends upon the nations making up the world: the progress of a community depends upon the individuals comprising the community — Washington Township has always been known as a stable, yet progressive Township. Those of you who have always taken for granted the stable financial policies, the uplifting civic organizations, the scenery of your Township, and the sturdy independence of its people, need only to look around you to realize that you are indeed blessed to be a part of Washington Township.

But it takes more than that to make a great community. Every person living in that vicinity has his part to play, his services to give, his co-operation to offer by falling into step with his neighbor as his Township, marches on to greater achievements.

Your splendid institutions, of which you are so justly proud, owe their birth and growth to you. The schools to train the minds of your youth, the churches to satisfy the spiritual yearnings of the people, the civic organizations to broaden and create new interests — all depend for their existence and maintenance upon the public minded business men and women who are looking forward to yet greater advancement. By Patronizing these local firms, you can give them the Aid and Co-operation which they truly deserve and value.

These are the Builders of your Washington Township! Great People — A Great Township! And It's Yours!

They feature feeds of all kinds, hay grain, dairy and poultry feed and are glad to give any information or advice desired on the subject of feeds. Newark Merchants Ball Club Has New Uniforms

NEWARK — The Newark Merchants dropped their second straight game by one run losing to the Fruitvale team by the score of 9 to 8.

Stewart on the mound for Newark was reached for eight safe hits by the Fruitvale nine. Five of the nine runs scored off him were unearned. He made the mistake of pitching a fat one to catcher Vierra in the fourth inning, it was promptly slapped down the fairway for a home run, scoring two runners ahead of him.

Fruitvale scored three runs in the first inning, on two hits, a hit batsman, and a misplayed fly ball by outfielder Marenco, a newcomer to the Newark Club.

The Merchants from Newark tied the score in their half of the third, on a base on balls, an error, a hit batsman, and a hit. Fruitvale scored another in the fourth to take a one run lead. Newark pushed five runners across in the fifth, which at that time looked to be a commanding lead. Fruitvale came back strong in their half of the inning, to score five runs and surge one ahead of the Newark club. This was all of the scoring for the afternoon, and the boys from Fruitvale were the winners.

The Newark club will play in Newark Sunday. Their opponents will be the strong Agrella's Haven team from Oakland. The Newark boys will wear their new baseball uniforms which they were able to purchase by contributions made by the following merchants and business estabishments: M. D. F. D. I. C. OFFERS BANK POSITIONS TO YOUNG MEN

An opportunity to enter a career of bank examining is offered young men of the country by the Federal Deposit Insurance Corporation, according to a recent announcement by the Untied States Civil Service Commission. Applications for admission to a competitive examination for positions as Junior Bank Examiners with FDIC, at an annual salary of $2000, will be accepted by the commission until October 2, 1941. These positions, which provide excellent experience in banks of all sizes and which involve extensive travel, should interest eligible young readers of this newspaper.

Since so great a proportion of the banks insured by the Corporation are so-called 'country' banks, located in small communities and serving primarily agricultural districts, FDIC is particularly eager to attract to the forthcoming examination young men who are familiar with the workings of small and medium-sized banks and with the problems of agricultural credit. Appointees will have excellent opportunities to broaden their knowledge through frequent assignments to banks in larger cities within their districts and through their training under senior examiners with long records of service.

The corporation is seeking men between the ages of 23 and 35 who have had at least one year's experience in a bank, building and loan association, or other financial institution, together with either three additional years of such experience or three years of college, accountancy, or law school education.

WEST POINT IN EXILE

Future Officers of Free France at Their Studies in English Classroom

TO FIVE generations of French infantry and cavalry officers, the 133-year-old Military Academy of St. Cyr, a few miles south of Paris, was what West Point is to the officers of the United States Army. Then, early last summer, invasion swept over Northern France, and ancient St. Cyr closed its doors. Already its corps of cadets had been halved by war-time emergency graduations. The few hundred students remaining were called together and told to flee—to make their way to safety, to England. Some 170, nearly one-half of the entire reduced corps, succeeded in getting there.

Today, supported by Anglo-American refugee organizations, these ex-students of St. Cyr are once more at work, learning to become officers for the Free French armies of General de Gaulle. Many of the original refugee students have since joined the ranks as lieutenants. But others have taken their place in the classrooms, and nearly 200 young Frenchmen now live at the South England college which Britain has turned over to them. Some of them will be the Generals and Marshals of the free France of the future.

STATE TAXES ARE ROLLING UP A SURPLUS

By Clem Whitaker

In the language of the Streets, California — we mean California State Government — is simply rolling in dough!

The shekels are piling up so fast that State Treasurer Charles G. ("Handsome Gus") Johnson needs a new vault just to put them away for safe keeping.

And State Controller Harry Riley, who used to worry about deficits, is now laying awake nights wondering what in the hell to do with the money.

It's colossal; it's terrific; it's bigger and better than anything Hollywood ever turned out in one of its more magnificent moments. Where they used to get dimes, they now get dollars. And even Governor Olson, who bitterly opposed the Legislature's attempt to reduce taxes, is now a firm believer in Santa Claus.

Fred E. Stewart, the gray-thatched impresario of the State Board of Eualization, whose Board collects most of the dough, admits that the State will shortly be embarrassed with riches, unless something is done about it,but Fred, as usual, has a solution.

Back in 1933, when California was faced with a threatened tax strike because taxes on real property were heavier than taxpayers could bear, Fred stepped into thebreech with the Stewart-Riley Tax Relief Plan, which saved many home-owners, farmers and other common property taxpayers from bankruptcy. ....**Today, says Mr. Stewart, the problem is different, but the solution is much the same. Then, one group of taxpayers was being discriminated against, while a larger group was being favored. The problem was equalization. Now, he asserts, all taxpayers (due to the national defense program) are carrying an exceedingly heavy burden, and the state should make liberal tax reductions to compensate, at least in part, for the heavier Federal load.**

"The State sales tax alone," reports Mr. Stewart, "is now producing around $10,000,000 a month, where a year ago it was bringing in only about $8,500,000. Due to national defense spending, other State taxes are booming in proportion. But this, of course, is a superficial boom. We pay it out there — and it comes in here. It's that kind of a story.

"There's only one intelligent thing to do. State taxes should be cut—and cut drastically—as an offset to the increase in Federal taxes. Our State deficit should be paid off, in full, by the end of the current fiscal year. Before the year ends, the Legislature should be called into special session—and State taxes should be cut at least $40,000,000 a bienium."

To this writer, that sounds like common-sense Yes Mr. Stewart, we think you have something!

IT'S SHOOTING, B'GOBS . . By Gobs

President Roosevelt's last "fire-at-sight chat" said the expected thing. We have marked off a certain part of the Atlantic as our own: if the axis powers want to trespass they will be shot at on sight.

Conversely, the nazis believe Icelandic waters are theirs, and apparently the Red Sea approaches!—are theirs, so they have already sunk half a dozen western hemisphere vessels.

But they did the same thing last war: after diplomatically promising to restrict their submarine warfare following the torpedoing of the Lusitania, they rather increased their preying on neutral commerce instead.

The same thing will happen again, and Uncle Sammy's gobs will have to start chasing the nazi vessels out of the Atlantic.

Which brings the axis dismemberment that much nearer. Japan now wants out of that sad association; and even Muscle-ini did not come to the Russian front when Adolph whistled: He put it off as long as he could.

And do the real Italian people hate the nazis and their be-damned Gestapo? They do. Under nazi domination the poorer class are starving to death. The peasant's normal supply of olive oil and even macaroni has ALL been taken to feed the nazi soldiers. On top of that Adolph has the nerve to ask Ill (he's plenty ILL now) Duce to send Italian soldiers to get killed for Hitler's sake—whom they hate.

Well, the bird of time is on the wing—and the bird has but a little way to flutter . . .

We Want to Serve— —To Prevent This!

WALK CAUTIOUSLY

A paragrapher with a sense of humor bordering on the ghastly quipped recently that the annual pedestrian death toll constitutes California's outstanding "bumper" crop.

The truth in that grim pun is found in figures furnished The Township Register by the Bureau of Statistics of the Department of Motor Vehicles showing this type of fatality to be increasing twice as fast as all traffic deaths collectively.

In the decade, 1930-40, pedestrian deaths increased approximately 40 percent. Last year 1,199 lost their lives in such accidents, a gain of 11.8 percent over the previous year, while 9,435 others were injured.

From the same source comes word that the figures crawled up at least 10 percent in the first seven months of 1941. A particularly distressing aspect is the high incidence of pedestrian accidents among young children and the helpless aged.

Here are facts for every resident of Washington Township to ponder carefully for the "black months" are approaching when daylight hours grow shorter, city streets are congested with shoppers and the pedestrian accident rate zooms skyward.

State motor vehicle authorities advise safety organizations to train their guns on this type of accident and urge pedestrians to wear an article of white clothing that may readily be seen at night by the drivers.

Among the sources of those innumerable calamities which from age to age have overwhelmed mankind, may be reckoned as one of the principal, the abuse of words. — George Horne

THE "SON OF HEAVEN" TAKES OVER

There was exciting news in last Thursday's foreign dispatches: Emperor Hirohito, the "Son of Heaven" (according to the Japanese mind) had taken over the Japanese Army and it was hinted a split with the Axis would be the next move.

Can't you see the picture: here is the Emperor, holy to the Japanese people, living in exclusive retirement . . sickening of the way the leaders of his nation have made a mess of things, economically as well as in a military way . . so after long years of lotus-smelling aloofness, His Nibs steps in . .

Thus performing the Will of God, so far as the Japanese people are concerned. The Japs at peace are a lovely people; at war they are as nasty as the nazis.

Their Emperor will work for peace now.

They Also Hoped For Friendliness

WITH unfailing diligence the Associated Press brings us the news that Mr. and Mrs. Albert Curry, Jr., of Pittsburgh, invited 2,500 friends to a glorious party absolutely unmarred by any silly war talk because host and hostess forbid it. They just cast aside doubts and fears and sensibilities and had the most amusing good, clean fun with the slogan, "The spirit of friendliness is what this country needs."

It is a crying pity that the Associated Press, and all our other sources of daily news, have been so thoughtless as to let us know that on this same night some 25,000 youths died on the plains of Russia, or were wounded and left to die.

In China the teeming yellow millions crouched in warm shadows and waited to see which must be the regular sacrifice to the benevolence of the new order in Asia.

In Yugoslavia and Norway, in Holland and Greece, in Belgium and Poland and Denmark, uncounted thousands lay wide-eyed in the darkness, their trampled hearts a battleground between the stabbing aches of yesterday and the horrible, shapeless, inevitable agonies of tomorrow.

In all these places, and along the deserts and rivers and forests and pavements of a hemisphere, terror-deformed men and women lay listening to the echoing shrieks of loved ones who had thought friendliness was what Europe and Africa and Asia needed.

They had watched torture and been tortured; had crept like furtive hunted rats through dark ways or huddled in ditches under the searching hail of machine guns; had run, clasping babies in their arms, from homes never to be seen again, and had been swallowed up in the vast, heaving, diseased misery of a homeless world.

All of them cowered before a black inhuman terror that filled their skies, and, in fact, the skies everywhere, except that blessed bit of blue above the lucky home of Mr. and Mrs. Albert Curry, Jr., in Pittsburgh, where nobody talks about a scandal like war and everybody basks in friendliness.

How nice to live there.

HAYWARD PLANS BIGGEST PET PARADE OCT. 3

HAYWARD—Receiving "hearty endorsement" from County Superintendent of Schools Edgar E. Muller, the Hayward Lions Club today issued invitations to all Southern Alameda County Schools for participation in the tenth annual Pet Parade, Friday, October 3.

Final plans for the 1941 Finance Campaign for the support of the Boy Scout program of the Township were completed at a meeting of the Citizens Advisory Comittee Wednesday night in the Centerville Justice Court.

E. D. Bristow, Township Chairman reported that all those present, including Allen G. Norris and Frank Madruga of Centerville, Harvey Braun of Niles, Sam Scott and Frank Veit of Newark and R. A. Griffen and Frank Scammon of Irvington, all were enthusiastic as to the results of the drive.

All of the towns except Newark will start personal solicitations not later than Monday and expect to have all collections completed by October 1st. Newark members are working on their mail campaign and will follow shortly with personal calls.

This is the annual campaign to raise the Township's part of the Southern Alameda County Budget which is approved and raised by the Citizens Advisory Committee. The Committee suggests you send in your subscription by mail now and so save the time and effort of the group of volunteers who will call on all those not so subscribing. Dr. Geo. Holeman of Centerville is the Treasurer for the Township.

Mr. and Mrs. John Enos, Jr. and daughters. Mrs. Mary Sequeria, Mr. and Mrs. J. P. Calderia and sons, Mr. and Mrs. Edmund Francis, and Mr. and Mrs. Jesse Perry, attended the wedding of Miss Roumilda Rose and Clifford Emge at the Holy Ghost Church at Centerville on Sunday afternoon. Following the ceremony a reception was held at the Country Club in Centerville.

HIT - RUN DRIVER

On Sunday evening while crossing the highway to attend a wedding at St. Joseph's church, Mr. Manuel Duarte of Centerville was struck by a hit and run driver who sped on through town. Mr. Duarte was taken by ambulance to the hospital for examination and was not seriously hurt. Reverend Manuel Rose accompanied him in an ambulance from Centerville.

FIRE CHIEFS PROFIT FROM RENO MEETING

NEWARK — Fire Chiefs Joe Pashote of Newark and Fred Rogers and Assistant Chief Frank Madruga of Centerville enjoyed the speeches made by the various delegates to the Pacific Coast Association of Fire Chiefs 48th Annual Convention held at Reno, September 8, 9, and 10. The most inspiring talk was made at 9:45 a. m., September 10 by Chief Herbert Scott, a fireman from England. Mr. Scott gave a short summary and examples of the bombing in London, where firemen worked day and night trying desperately to keep the battle of flames from high explosive bombs from spreading to nearby buildings and to safeguard homeless children and mothers of the soldiers fighting in this war.

Attorney General Earl Warren of California also made a short inspiring talk with regard to National Defense. Captain Ted Enter of the United States Army made a talk on "Incendiary Bombs."

Fire Chief Tom Lane, an officer of the Alameda County Association of Firemen, a resident of Alameda, had the honor of being elected First Vice-president of the Pacific Coast Association Fire Chiefs. Mr. Lane is a very active fireman in Alameda and is very active in the county association. Other officers elected were Chief Hugh Morris of San Mateo, president, and Jay W. Stevens, secretary and treasurer, who is a resident of San Francisco.

Another important talk was made by Chief of Police Robert Powers of Bakersfield, who spoke on the subject, "Traffic at Fires." Beside speeches educational motion pictures through the courtesy of Standard Oil were shown to the delegates. Fire drills, demonstrations, and luncheons were also held at the convention.
